FOR IMMEDIATE RELEASE**Orthomolecular Medicine News Service, Feb 23, 2020****TONS OF VITAMIN C TO WUHAN**
China Using Vitamin C Against COVID**by Andrew W. Saul, Editor-in-Chief**
Orthomolecular Medicine News Service

(OMNS February 23, 2020) We can all agree that 50 tons of vitamin C pretty much qualifies as a megadose. We can also likely agree that trucking 50 tons of vitamin C, straight into Wuhan, full in the face of the COVID-19 epidemic, qualifies as news.

The news media are not reporting this, or any other, significantly positive megavitamin news.

Yesterday, 50 tons of immunity boosting Vitaminc C were shipped from our DSM Jiangshan plant to the Province of Hubei, of which Wuhan is the capital city. The banner text on the truck reads: "In the fight against N-CoV the people of DSM Jiangshan and Wuhan are heart to heart"

Loving the photo, but needing authentication, I consulted my physician correspondent in China, Richard Cheng, MD. He confirmed it, saying: "This was reported in the Chinese media about 2 weeks ago." Another translator has also independently verified the accuracy of the translation.

DSM, by the way, simply stands for Dutch State Mines, the Netherlands-based parent of DSM Jiangshan Pharmaceutical Co., Ltd. The Chinese division has been recognized as a "China Enterprise with Outstanding Contribution to Social Responsibility."

https://www.dsm.com/countrysites/locations/jiangshan/en_us/home.html There is another DSM factory in Scotland, which also manufactures vitamin C.

We are so used to being lied to that the truth is like a diamond in a five-and-dime store: you can't believe it is real because it is mixed in with the fakes. News of nutrition-centered treatment of COVID-19 has been branded "fake news" and "false information." I say that what is "false" and "fake" is the deliberate omission of any news of health-saving, life-saving measures already underway to help the people of China and the rest of our planet. .

Here is more verified but still unreported news of high-dose intravenous vitamin C against COVID-19 in China:

February 21, 2020	Three Intravenous Vitamin C Research Studies Approved for Treating COVID-19
February 16, 2020	Early Large Dose Intravenous Vitamin C is the Treatment of Choice for 2019-nCov Pneumonia
February 13, 2020	Coronavirus Patients in China to be Treated with High-Dose Vitamin C
February 10, 2020	VITAMIN C AND ITS APPLICATION TO THE TREATMENT OF nCoV CORONAVIRUS: How Vitamin C Reduces Severity and Deaths from Serious Viral Respiratory Diseases
February 2, 2020	Hospital-based Intravenous Vitamin C Treatment for Coronavirus and Related Illnesses
January 30, 2020	Nutritional Treatment of Coronavirus
January 26, 2020	Vitamin C Protects Against Coronavirus

Summary

- 1) Three repeatedly confirmed vitamin C for COVID-19 research studies are going on in China now. <http://orthomolecular.org/resources/omns/v16n12.shtml>
- 2) Confirmation has also been obtained that 50 tons (yes, tons) of vitamin C has been donated by a major C manufacturer and trucked to Wuhan.
- 3) The concerned public is receiving only "be-scared-until-we-vaccinate-you" news.
- 4) Sharing information on COVID-19 vitamin therapy research has now been systematically blocked by Facebook and other social media giants.
- 5) The news media are not reporting on any of this. Therefore, I ask that you take it upon yourselves to do so and share all this with everyone you can.

Nutritional Medicine is Orthomolecular Medicine

Orthomolecular medicine uses safe, effective nutritional therapy to fight illness. For more information: <http://www.orthomolecular.org>
